

HOW OMEGA³ REACHES THE BLOOD STREAM

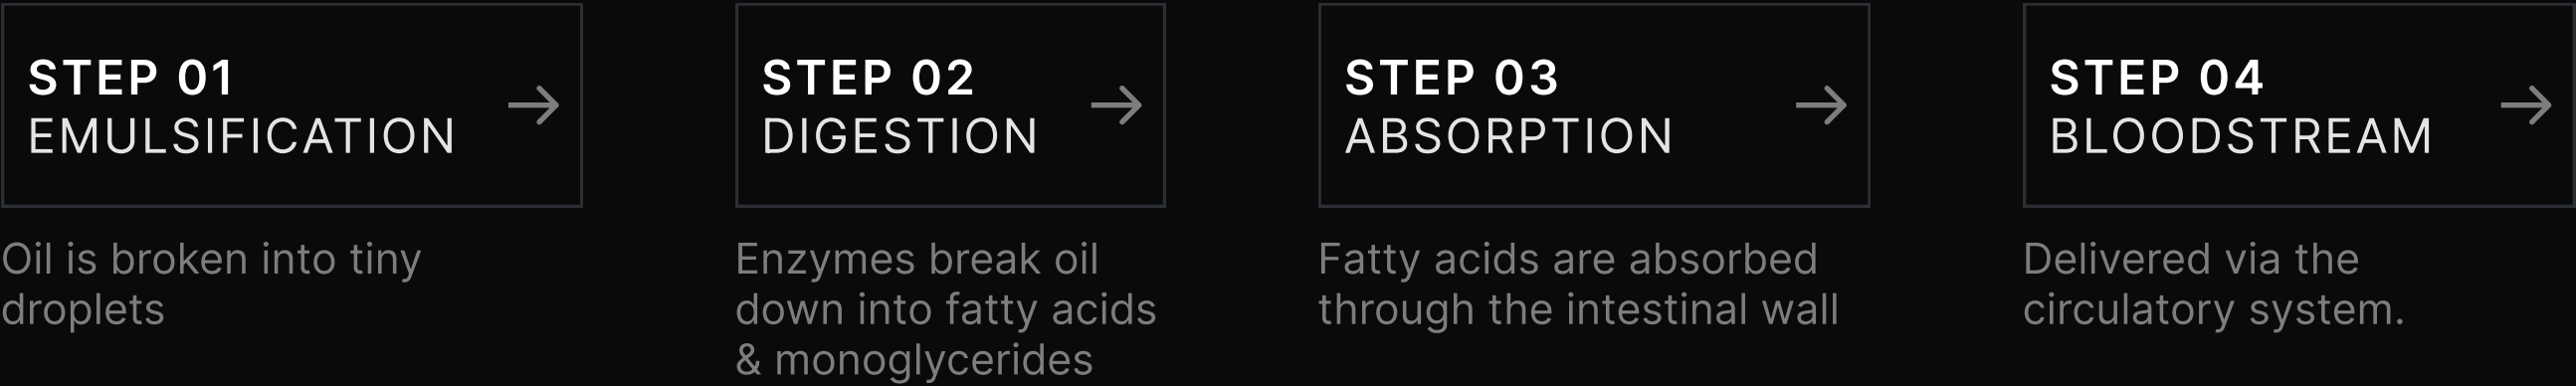

ENDGAME SYSTEMS
OMEGA³ /
ABSORPTION
MECHANISM

[Standard fish oil requires three digestion steps. MAG-03 bypasses two of them.]

00 ————— 01

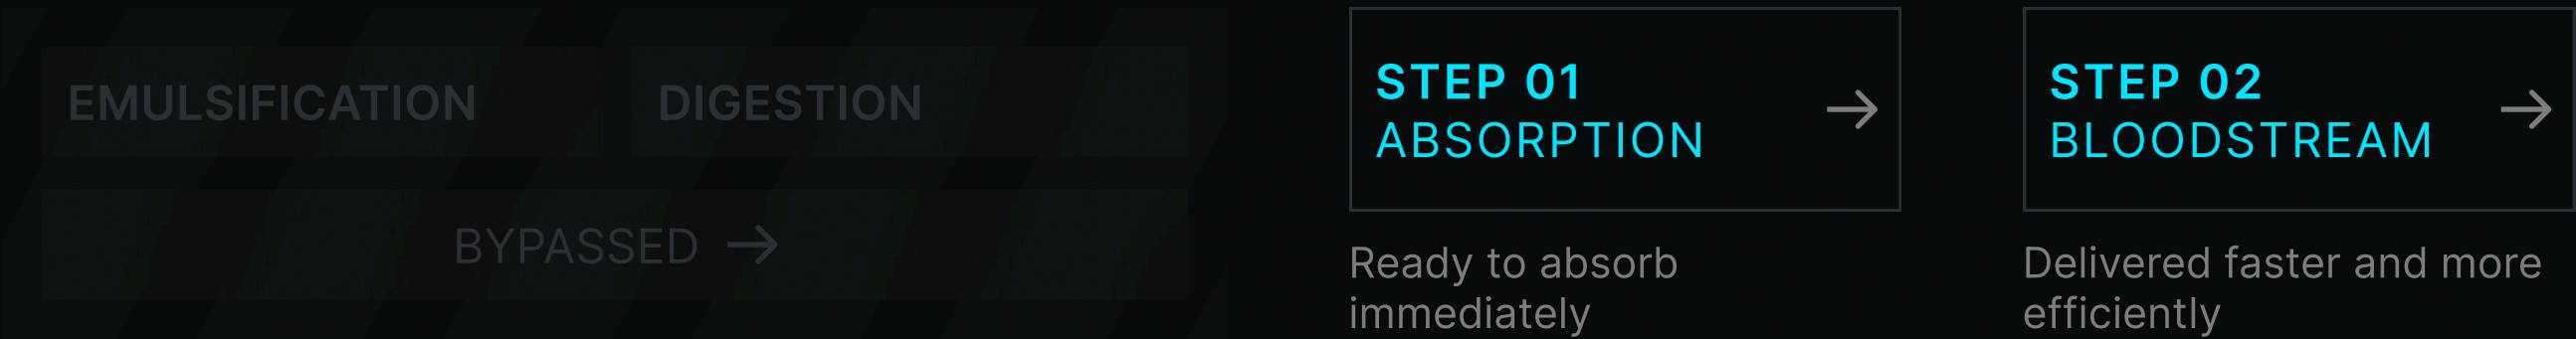

STANDARD FISH OIL

Requires multiple conversion steps before absorption

MAG-03™

Pre-converted to the body's preferred form
MONOGLYCERIDE

MORE DIRECT
MORE EFFICIENT
MORE OMEGA³ DELIVERED

MAG-03 is pre-converted to monoglyceride, allowing it to be absorbed directly, bypassing two required digestive conversion steps.
The result: Faster delivery and greater efficiency
